Work Environment

Dante Niewenhuis

September 4, 2020

This is a small overview of where my files for the Software Engineering course will be placed I am not completely sure on where I will put everything but this is my initial setup.

Github: *https://github.com/DanteNiewenhuis/RE*

For github I am planning to put more thought out work like my Portfolio and summaries.

Drive: *https://drive.google.com/drive/folders/1exf09LYeRfVdYIzBnLlPVWMENsfTiStx?usp=sharing*

On Drive I will put lecture/literature notes and interviews. The content on drive will be less detailed and thought out then what I will put on github.
